

NRA 200 yard HME target scaled to 100 yards.

The diamond is aim point and is 1.6 MOA below the centre to the target. Aim at the diamond and adjust your scope to hit the middle of the round target and your rifle should be close to the centre of the NRA HME target when shot at 200 yards. To be used with the NRA 200 yard HME direct fire target (not a target with an aim point and separate rectangular scoring box).
